## International Students Reflections

Howdy! I have joined Vignan through COMPEX scholarship. The first 2 weeks were quite hard for me. I felt really lonesome because I was away from my home, family, and friends. But as the college started, the whole story has turned around. From the very beginning bridge course and extra curricular activities helped me to explore a lot and to create my own space at Vignan's University.

- Nichal Kafle  
II Year, B.Tech - Civil Engg.,  
from Nepal

Vignan's University is a really diversified campus, and it has let me meet a lot of new people from all over the world. The optional clubs helped me for my holistic development which in turn helped me to become a true professional and an emotionally balanced student. Professors and staff on campus are so friendly and willing to assist us at any time.

- Isaiha Flaviano D Souza  
I Year, B.Tech - Biomedical,  
NRI from Dubai, UAE

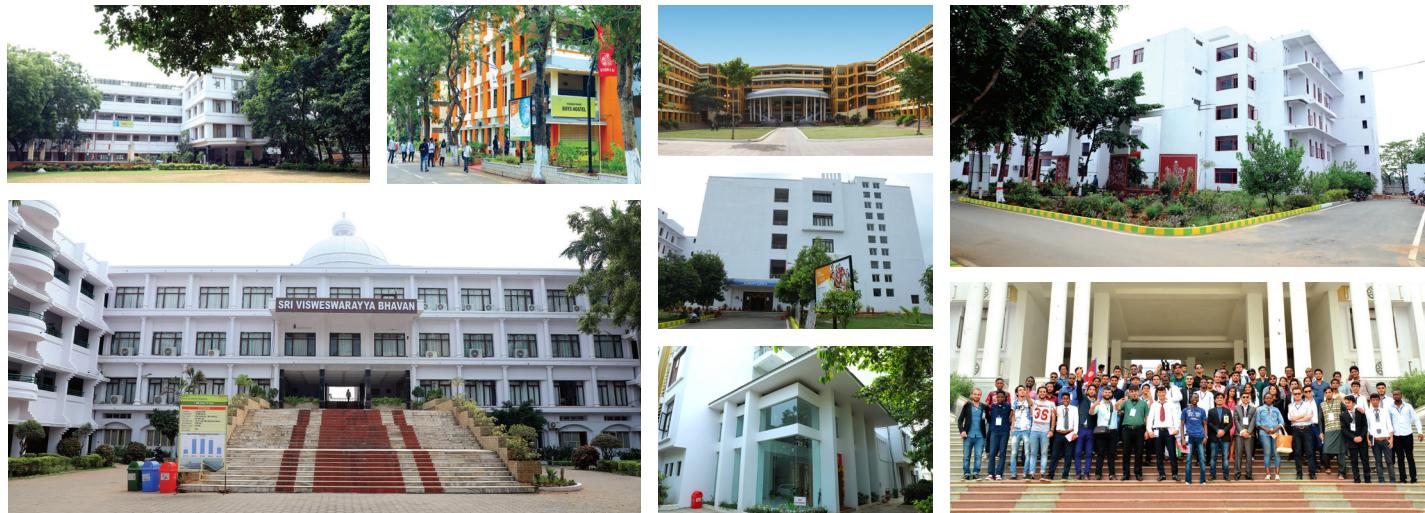

When I came to vignan, I had a good idea of Indian Culture, but I was still nervous about whether or not I would fit into it. Vignan played a conducive role in helping me out and making my journey easier. My advice to engineering aspirants is that they should not be afraid and should know that there is a community here to support them. Vignan has had my back since the very first day.

- Abdul Hazid Hameed  
III Year, BCA,  
From Sudan

I'm Allan, I always wanted to study in a multi-cultural environment and on the other side I was concerned about the weather and people, and I wondered if I'd be able to study in India. But Vignan has always been at my side, and to be honest, I've made the right decision for my future.

- Allan Chakachaka  
I Year, B.Tech - Chemical Engg.,  
From Zimbabwe
